DAWES DELAYS START HOME TO VISIT COOLIDGE

May Discuss Klan Speech Today.

BY PHILIP KINSLEY.

(Picture on back page.)

Boston, Mass., Aug. 24.—(Special.)

Gen. Charles G. Dawes arrived in

Boston from

Malta tonight.

Tomorrow afternoon he will have

a few words with

President Coolidge in the quiet

of the old Coolidge

farmhouse in the Vermont hills.

This visit is at the suggestion of

the President, made today in a telegraph message from Secretary Stimson, and CHARLES G. DAWES,

relayed by Gov. Percival Baxter from Augusta to Gen. Dawes, who was at the small-point beach home of H. M. Sewall, national committeeman from Maine.

Gen. Dawes had intended to leave

for Chicago tomorrow noon from Boston.

Now he will be one day late in getting home.

The conference with the President, however, is expected to be of considerable value to both of them in investigating the problems of the campaign.

Gen. Dawes is to speak to farmers in Lincoln, Neb., next Friday, and it is possible that the President wants to give him a speech on that

topic. He has been invited from the man who headed the reservations commission.

Tears Up Lincoln Speech.

Mr. Dawes said a few days ago that he had torn up his Lincoln speech and would talk without one written.

As to the specific subjects to be discussed in his interview tomorrow Mr. Dawes tonight kept his own counsel.

The sudden change in plans has given rise to the report that the main object of the visit is to discuss the Ku Klux Klan phase of the campaign.

Gen. Dawes said tonight that it was suggested to him before he left Chicago for the east that it would be a good idea for him to make a pilgrimage up the Old Notch Trail to the Coolidge home. He may spend the night at the farm.

Mr. Dawes spent Saturday night and today in the refuge of a beach camp out among the Atlantic breakers with the gulls and winds for his companions. At 3 o'clock this afternoon he announced his abrupt change of plans and left by motor for Portland to catch the Boston train.

Distressed About the Klan.

He is now disturbed about the reaction to his anti-Klan speech in August. That his action should cause any excitement at all is considered by him as an interesting commentary on American politics. He had decided what was right in that matter. Having decided it, he took this August opportunity of stating it publicly. That it did not please all Maine politicians who are anxious about the success of the Republican state ticket Sept. 2, does not trouble him.

"There is a right and a wrong in all things," is his attitude. And this is the state of mind in which he will greet the silent man in the Green mountains farmhouse tomorrow.

The immediate question raised in Maine political circles by the Dawes speech is—What will Coolidge do?

The Klan, ignored as an enemy by the Republican leaders in Maine, barely touched upon by the President in his acceptance speech, unnamed in the party platform, has been made an issue.

Democrats Soothing Chances.

The only difference between his delineation and that of the Democratic spellbinders is one of degree and in his expression of sympathy for the motives of misguided Klansmen and his understanding of the causes that led to secret organizations. The Democratic leader in Maine, Mrs. William R. Patterson, will take immediate advantage of the situation created by Mr. Dawes, and will drive at his opponent Senator Ralph O. Brewster.

"It is gratifying to the Democratic party that Mr. Dawes has expressed his opposition to the Klan," said Mr. Patterson today.

"We look upon his stand as a re-pudiation of the position occupied by Senator Brewster in Maine, who though probably not a member of the Klan, is an anti-Klan nominating. I do not believe President Coolidge will declare himself on the Klan issue, not at any rate until after the election in Maine. So we can now say that while a vote for Brewster may be a vote for Coolidge it is not a vote for Dawes."

KLAN NOMINEE ADMITS LOSING GOVERNOR RACE

Huge Ballot Called Her 'Vindication.'

(Picture on Page 3.)

Dallas, Tex., Aug. 24.—Mrs. Miriam Ferguson, the first woman candidate for governor of Texas and wife of James E. Ferguson, former governor, was nominated at the Democratic primary, Saturday, over Feltis Robertson of Dallas. Judge Robertson, Ku Klux Klan a candidate, telegraphed Mrs. Ferguson at her home at Temple, "I sincerely congratulate you on your victory."

The Texas election bureau tabulation of the vote tonight showed Mrs. Ferguson leading by about 77,000 and more than 735,000 ballots counted.

The bureau estimated the total vote would be close to \$50,000. Reports to-night showed it was heavier than at any previous election in Texas.

The latest figures showed, with 220 of the 223 counties tabulated, from 15 reporting complete, the vote to be, Mrs. Ferguson, 401,250; Robertson, 125,719.

Always Feels the Wind Win.

When told of her victory at her home in Temple, where she is familiarly known as "Ma" Mrs. Ferguson, whose nomination is practically equivalent to election, said:

"There never was any doubt in my mind what I would win. The people of Texas are tired of Klan politics and misrepresentation. It was that issue that gave me the election."

She is going to the White House to speak to the Klan leaders to make them a true governor and nominate the true place in history.

There are many things to do, but I am going to take the bull by the horns and show the world that a woman can fill the governor's chair with credit to herself and the state."

The closed case of the run-off primary is that for lieutenant governor between William Edwards of Denton and Harry Miller of Dallas. Miller is leading Edwards, according to late returns. The vote, Miller, 314,878; Edwards, 261,380.

WHOEVER WINS ELECTION, TAXES WILL GET THE AX

Emergency Laws Point to
Special Session.

BY A STAFF CORRESPONDENT.
Washington, D. C., Aug. 24.—(Special)—With further tax reduction and more tax reform proposed by President Coolidge, and with a greater lifting of the taxpayers' burdens also urged by the other two presidential candidates, it is becoming a certainty that another general revision of the revenue laws will not be long deferred.

An extensive overhauling of the present statutes is necessary, moreover, before Congress comes in after March 4, 1925. The discussion will start at the December session, however, and an attempt will be made to get through some emergency legislation remedying defects in the provisions of the present law creating the board of tax appeals.

Special Session in Spring.

Any emergency legislation, however, may fail, which will make it all the more certain that whether President Coolidge is reelected or not one takes up the reins of government, a special session of congress will be called in the spring of 1925 with tax revision one of the main subjects up for consideration.

Senator Jones (Dem., N. M.), one of the Democratic members of the Committee on Finance, and a former minority member of the finance committee, was the author of the corporation tax amendment which was incorporated in the revenue bill on the floor of the senate by a combination of Democrats and radical Republicans who voted against it in conference. Senator Jones intends to renew his advocacy of this amendment, but plans to revise it with a view to removing some of the objections advanced against it previously.

General Desire to Change Law.

It is conceded that even if there were time for a comprehensive revision of tax laws in the short winter session it would be impossible with the present administration to add a new tax with higher surtaxes to a level much lower than provided in the law enacted at the recent session.

When the new congress comes in there will be many changes, and if the country goes either strongly Republican or Democratic it is quite likely that the members will be in a temper to take up the tax revision again. It is reasonably certain that President Coolidge, if reelected, will have back of him an actual working majority in the house and the regular Republicans may be close enough to a majority in the senate to enable the votes to pass.

Suggestions regarding administrative changes in tax laws are expected to

TRY TO ESTABLISH TITLE TO SECTION OF PHILADELPHIA

Visions of possible fabulous wealth—a hundred millions at least—stirred the imaginations of a little group of men and women gathered yesterday afternoon in the modest home of Dr. Lyle E. Coates, 6425 Northland boulevard, a locomotive engineer of the Pennsylvania railroad.

It was a conference of such of the 3,000 claimants of a vast Philadelphia estate as reside in the middle west.

Legislation which it is hoped to introduce in Congress to them is to begin in the federal courts in Philadelphia in October, it was announced, and yesterday's meeting was for the purpose of putting the finishing touches to plans for an anticipated long drawn-out court fight.

"Here is the way it came about," explained Senator Coates. "The Quakers and Mrs. Coppock, who were Quakers and had recently come over from Ireland, leased for ninety-nine years a total of 5,000 acres of virgin land near Philadelphia. About 975 acres of this land now is included with in the business section of Philadelphia, and there are some of it stands ten and fifteen story buildings."

"Later both the Coates and Coppock families, the members of which had intermarried, moved to North Carolina, and thence on years went on their descendants scattered over the globe.

In the meantime the lease, which we have every reason in the world to believe is a genuine and legal document, ran right along; but after some years, so far as we now know, the rentals were collected by the lessors or their descendants."

From the Coates committee of the senate, which will resume its investigation of the internal revenue revenue about the middle of September.

Against Secret Committees.

It was from the Coates committee that the suggestion for publicity of proceedings before the board of tax appeals emanated. Members of that committee now complain that the internal revenue bureau has defeated the purpose to some extent by providing two opportunities for hearings in secret before a tax case is taken to the board of appeals.

Some further recommendations in this connection are expected to be made by the Coates committee in line with its purpose to prevent improper settlement of tax cases of large corporations by secret proceedings with former members of the government functioning as attorneys for the taxpayers.

Secretary of the Treasury Mellon is expected to devote some attention to the question of corporation taxes in his annual report, which will be presented to congress during the opening week of the December session. Secretary Mellon opposed the Jones corporation tax amendment.

HAZE PREVENTS SEARCH FOR 3D MOON OF MARS

"Jumpy" Air Disappoints
Yerkes Observers.

"Jumpy" atmosphere last night at Williams Bay, Wis., made observations of Mars at the Yerkes observatory, the astronomy department of the University of Chicago, difficult, Prof. Edwin B. Frost said. Dr. Frost, director of the observatory, said his observer, Prof. George Van Biesbroeck, would continue to search for a new moon near Mars, but that should anything be found suggestive of such a discovery it would not be admitted to the world until the staff of astronomers at Yerkes observatory were quite sure of their observations.

Very clear, steady atmosphere must be had for a satisfactory study of the planet, which last night in the "jumpy" atmosphere appeared to boll and flash.

Double New Discoveries.

That nothing has not been already known has developed during the current observations of Mars, Prof. Frost said. He added that his friend, Prof. Schaefer, director of the Jungfrau observatory in Switzerland, may have been misconstrued in yesterday morning's press reports, because astronomers have agreed for some thirty years upon the fact that Mars has moisture and clouds.

So valuable observations must come from Lowell observatory at Flagstaff, where the air is universally dry, Prof. Frost said last night. Knowing that the presence of moisture has been admitted by astronomers for thirty years, Prof. Frost said, he added, "Prof. Schaefer's statements must have been misconstrued in his announcement that water and signs of life had first been noted in this opposition. A possible low form of vegetable life—perhaps a fungus—may be found on Mars, but that is all Prof. Frost will say."

Good Results at Flagstaff.

Flagstaff, Ariz., Aug. 24.—With atmospheric conditions continuing and with the surface of Mars clear, Lowell observatory experts were able to secure excellent studies of the planet in the last two days.

The smaller moon rises in the west and tries to the east, while the larger moon moves from the west, as does the earth's moon. On account of the small size of the two bodies, no deductions can be made regarding their action and composition, according to observers, although it is believed they bear the same relationship to Mars as does the moon to the earth.

Good Results at Flagstaff.

It was from the Coates committee that the suggestion for publicity of proceedings before the board of tax appeals emanated. Members of that committee now complain that the internal revenue bureau has defeated the purpose to some extent by providing two opportunities for hearings in secret before a tax case is taken to the board of appeals.

Some further recommendations in this connection are expected to be made by the Coates committee in line with its purpose to prevent improper settlement of tax cases of large corporations by secret proceedings with former members of the government functioning as attorneys for the taxpayers.

Secretary of the Treasury Mellon is expected to devote some attention to the question of corporation taxes in his annual report, which will be presented to congress during the opening week of the December session. Secretary Mellon opposed the Jones corporation tax amendment.

Dustin Farnum, Film Star, Wed to Winifred Kingston

(Picture on back page.)

Another swift Hollywood romance

broke into print with announcement

of the engagement of Dorothy Dwan

and Larry Simon. They will be mar-

ried in six or eight weeks. They met

for the first time six weeks ago.

Scoot Murder Theory in Elevator Man's Death

After questioning several employees at the Capitol building yesterday, the police of the Central station secured the possibility of murder on the basis that Joseph Wartens, an elevator operator, who fell thirteen floors to his death, was pushed into the shaft during a struggle. The police questioned his wife, Adigil. She knew of no enemies nor any motive for suicide or murder. An inquest will be held today.

Snooze in Stolen Auto Means Years in Prison

His snooze in an automobile near the forest preserve, west of La Grange, cost Robert Holmes, 28, of Carrollton, Ia., war time deserter and escaped Leavenworth convict, his liberty. He was accused of killing Herman Casper of La Grange on suspicion and upon questioning not only admitted his identity but said that the machine he was sleeping in was stolen. He will be returned to the penitentiary.

SILKS Late Arrivals in New Fall Silks

From the Silk Section
Second Floor

One of the smartest materials for the season is a soft Bengaline. It is moderately priced and in many new shades. Crepe brocades in a wonderful range of colors are suitable for gowns or linings.

Crepe de Chine, Special \$1.95

The most wonderful value for Lingerie in pink and white, 40 inches wide.

Satin Stripe Canton \$2.85

White, Ivory, Gold, Mandarin, and Flame are the colors in this soft Canton. It is an unusually fine quality and priced very much below the regular value.

Satin Crepe \$2.75

A beautiful quality for lingerie, shown in all the desirable colors, the best value to be had. 40 inches wide.

Glove Silk Underwear Glove Silk Vests \$1.65

These peach color or pink vests have bodice tops with self shoulder straps and are full size in a heavy weight silk. Sizes 36 to 42.

Glove Silk Bloomers \$2.65

Pink glove silk bloomers are made of a heavy weight silk and are full size, well reinforced. Extra size, \$2.95.

KNIT UNDERWEAR—SECOND FLOOR

Stevens Special Girdle

This handsome broche girdle with elastic bands over the hips moulds the figure into the season's approved lines and assures the wearer of true comfort. It is topless with medium length skirt and very flat back, an unusual value at \$5.00. Fitted with Stevens attention to detail.

SECOND FLOOR—CENTER

Golf Gloves Price per pair, \$1.50

Ideal Gloves for the golf player for any season are short chamois skin with perforated backs, and very short fingers, giving full play, yet protection.

Chamoisette Gauntlets \$1.50 and \$2.00

Kaiser's Chamoisette Gauntlets are favorites among the well dressed women. Turn back cuffs or cuffs with frills are equally smart.

GLOVES—MAIN FLOOR

Delmar Service Hose \$1.85, 3 pairs for \$5.50

Full fashioned medium weight pure silk hose with lisle garter tops and soles to assure good wear. A complete line of colors including Black, White, and Gunmetal.

Delmar Chiffon Silk \$1.75, or 3 pair for \$5.00

Perfect quality chiffon silk hose with lisle tops and soles. Black, Sand, Log Cabin

YANKEE EXPERTS WORK OUT DAWES PLAN MACHINERY

Expect Germany to Begin
Payments Soon.

BY HENRY WALES.

(Chicago Tribune Foreign News Service.)

(Copyright 1924 by The Chicago Tribune.)

PARIS, Aug. 24.—The Dawes plan may be in operation and Germany making its initial payment of reparations under it by the first week in September. The Germans are exclusively informed today by authoritative sources.

Following President Coolidge's overwhelming victory in the chamber of deputies at 4:30 o'clock this morning, the senate is expected to ratify the London accord Tuesday.

Meanwhile, beginning tomorrow, Owen D. Young of New York will prepare the personnel of the organization entrusted to carrying out the execution of the experts' plan.

Gilbert May Take Job.

Advices received today from New York indicate that Seymour Parker Gilbert will accept the position of "agent general for reparations," which Mr. Young will occupy ad interim for three months while he starts the plan rolling and breaks in Mr. Gilbert, 32 year old treasury department official.

The Astorians today believe Col. James A. Logan, who has been American unofficial observer, will accept the position as American member of the reparations commission.

Mr. Young intends to keep the personnel of the Dawes plan organization at the smallest minimum, now hoping a staff of sixty will be ample. He points out that high caliber, efficient men, possessing the proper elasticity of temperament, can get Germany itself to do most of the work involved, the experts merely supervising and controlling.

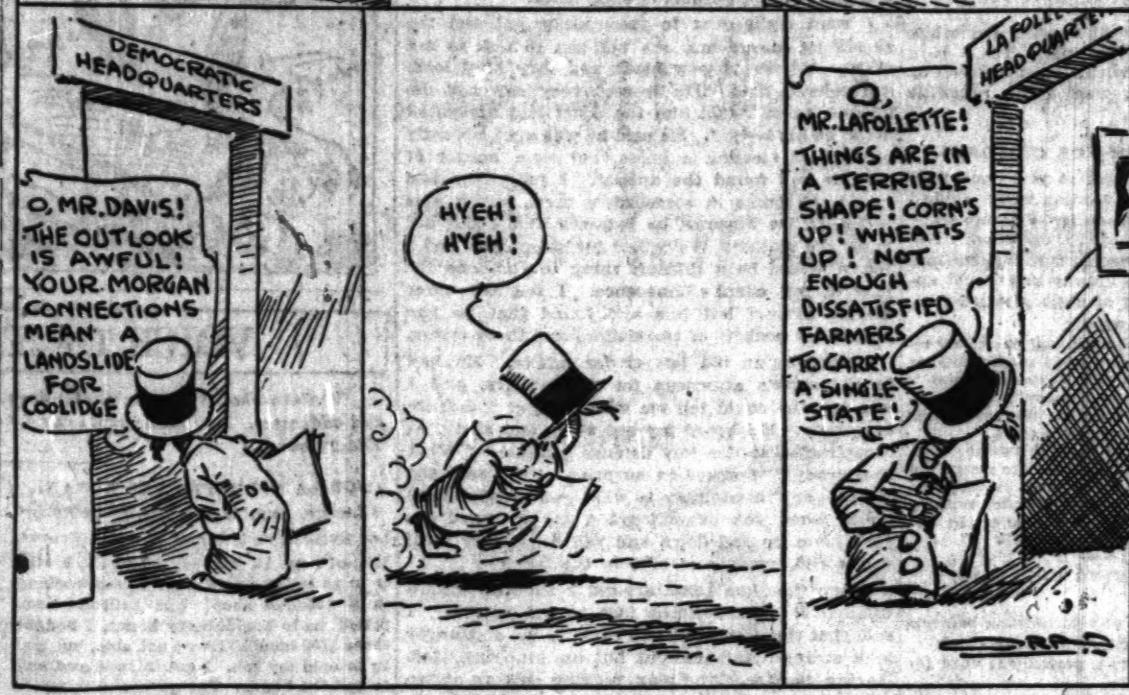

The agent general's office will have its headquarters in Berlin, but a close liaison will be maintained with the repatriation commission here.

Worry Over Receipts.

This Tribune is informed that the greatest anxiety worrying those intimately connected with the Dawes plan is not how much Germany can pay, but how much the allies can afford to receive from the relief. Grave doubt is expressed whether the allies can absorb 2,500,000,000 gold marks (\$265,000,000,000) which the experts estimate Germany will be paying at the end of five years.

The electrification of France's rail ways, utilizing Rhine water power, is considered the biggest means of France obtaining its 55 per cent. Similar operations are envisaged for Italy, thereby

TOLERANCE.

The founders of this nation intended to establish a government which protected liberty of conscience and religion and promoted tolerance. They separated church and state and left to the citizen his freedom in matters dear to his own spirituality. In this they succeeded, and the continuance of a well nation depends on the continuance of these principles.

They knew because they were not so far from the days of intolerance what its curse was. It has depicted nations, ruined peoples, turned a creed of charity and love into one of hatred and slaughter, and it has given the wolves free range over lands which had populous towns and productive farms.

We all realize this when the question is raised, but we may not appreciate that the instinct of intolerance is only dormant, that it can be fanned, that it destroys reason and brings destruction. Realization puts people on their guard. They know that the anchor will hold only in tolerance.

Religion is not a political issue in this country. The issues in this campaign are well defined, and religion, happily, is not one of them. It is not proposed by any person or any party that if a certain decision is made there will be a change in the attitude of the United States government towards any creed. It is not proposed that as the result of the campaign there shall be an impairment of religious freedom, a discrimination of any kind because of creed, or any oppression of believers or unbelievers.

Therefore, religion is not an issue and it should not be raised in any irrelevant form to distort the minds of any voters or persuade them that there are apt to be consequences which will not be in my case no matter what the election returns are.

The Democratic national convention had a bitter fight over the Klan. It decided its nominations on that issue, but if McClellan had been nominated and elected there would have been no injustice done to the other creeds. The government is substantially sounder than that. If it were not, the course could have happened or could happen, we'd be headed straight for destruction.

The man is an issue in some states. It is in Texas and elsewhere in the south. There are echoes of it in Indiana, Ohio, and elsewhere in the north. There has been a movement against segregated schools in Oregon and in Maine.

It is our belief that to so far as the Klan has purposes against the spirit of American tolerance it is bound to die of its own error and because of the prevailing right spirit of the American people. It is not unlike organizations which have had their day in the past and have entered politics, such as the anti-Masons, the Know Nothings, and others.

Mr. Davis gives an echo of the Democratic convention when he declares against the Klan and asks President Coolidge to do likewise. Citizens may ask themselves to what extent they think a non-existent issue could be made a fighting point if the relevant facts were ignored.

We have confidence in the ability of the people to keep their equilibrium. We have an idea Mr. Coolidge will say nothing to the challenge. If he said anything he might ask in what respect any vote cast in the presidential election would change or could change the fundamental attitude of the American government towards creed, tolerance, and conscience. If the next government is headed by Coolidge and Daws, or Davis and Bryan, or La Follette and Wheeler, there will be no change to that. If Foster ran true to the principles of the soviet, a Red government under him would be either fanatics or anti-religious, but we are not anticipating that he will be placed in position where he can eliminate religion as the opiate of the masses.

We think it should be on the conscience of every candidate that he do nothing for vote getting to be a fame. It is our belief that the cure of intolerance opinion, if it does not work itself into bitterness and opposition, is indifference. That is fatal. Fanaticism stiffens under attack. Law is the cure for lawlessness and oppression.

Every one knows that opposition cannot be the outcome of this campaign. The states which have a problem will have to solve it, and there again the solution will lie in a return of tolerance.

ACCIDENTS POINT NEEDS.

An "L" train has been kept from plunging into the river with forty passengers only by dashing it into a steel and concrete bulkhead. The results were grave and a most unpleasant shock to the passengers and to a score of persons standing below and the obstruction of through elevated traffic from the north and south sides for more than three hours. The police say that this is the third time in two months that trains have been run into dangling switches to keep them from running into the river.

If Chicago needs more arguments against the movable bridges this ought to be a good one. The picture of a crowded train bearing down upon a drop of seventy feet to a stretch of open water is not a pleasant one. Ignoring the delays and costs of time and money for all traffic due to the closing of bridges, the more spectacular point of danger ought to direct public thought to this issue.

Individually there have been too many unfortunate interruptions of the "L" service of late. Fortunately they have resulted in little more than the inconvenience of the "L" services of late.

CHICAGO DAILY TRIBUNE: MONDAY, AUGUST 25, 1924.

How to Keep Well.
By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered, subject to proper sanitations, and where a stamped, addressed envelope is enclosed. Dr. Evans will not make a diagnosis or prescribe for individual diseases. Requests for such service cannot be answered.

WHITE INDIANS.

THE newspaper reports of the search for White Indians in Panama has interested some people in the mutations connected with the skin and in the origin of mosaics. The first and of the age old stories of White Indians in the interior of Panama, near the junction of Central and South America.

The next group of stories told of the presence of some White Indians, the presence of a few with the expedition on its return to the United States, and discussed the origin of these Indians.

One story in this group, after describing some peculiarities of color, proceeded to discuss other features and told of evidence that these Indians showed a tendency of Indians to evolve into white men of the Nordic type.

People with vitiligo stain the white spots with walnut juice. There is a form of acquired leukoderma caused by syphilis.

CHLOROFORM FOR CHIGGERS.
G. H. C. H. writes: A year ago I read in your column of a tick-bite which rubbed upon the body made it quite safe to go into chiggers infested vegetation. Not since I found it, but this summer we are suffering greatly and would appreciate knowing of some preventive.

REPLY.

I have never had much faith in chlorophyll. One is yellow some: another blue. I used to eat green beans raw, but when I found them Indians who had studied the specimens of White Indians brought here by this expedition had pronounced them Indians who had vitiligo.

As to the first group of stories. For centuries, adventurers and travelers have occasionally reported White Indians as having been seen in the direct neighborhood of tropical regions.

Balfour's says: "Albinos are frequently found in the tropical regions." Dr. Crocker and others have reported cases of Albino Indians; their reports being illustrated by pictures. Crocker says albinism is quite frequent among pigmented people, such as Negroes and Indians.

As to the second group of stories. That the expedition brought Indians with little skin pigment is certain. No one knows the origin of the Indians.

One theory is that they came from the Orient and were originally a yellow-skinned, slant-eyed people.

It is possible they may have been Nordic in origin. We do not know. Still less do we know of the origin of the Indians and Mayas—those that were in Central and South America before the Indians.

While it is thought the purest blooded Indians in existence are the San Blas and the neighboring tribes, no one knows how much Maya, Incas, Indian Negro and white has been mixed—even in the San Blas and Darien areas.

That these White Indians represent an evolution from Indian characteristics to just what they want, an illustration of how we have alarmed a perfectly armed nation into arming. Another is a jingo move to give in Japan a stimulus to the popular resentment of American exclusion. If Japan had no military defense other than will be revealed in our defense test its government would be throwing a fit.

BEATING THE PACIFISTS TO IT.

Japan has a conscripted army under universal service and it has its maneuvers just as all military countries have. This country has a consular army, a skeleton organization of a reserve and no maneuvers. When the Japanese, unofficiously, prepare for a national drill the month following the test of the American defense act we may suspect that there is an adroit move in two directions. One is to supply our pacifists with just what they want, an illustration of how we have alarmed a perfectly armed nation into arming. Another is a jingo move to give in Japan a stimulus to the popular resentment of American exclusion. If Japan had no military defense other than will be revealed in our defense test its government would be throwing a fit.

EFFORT SAVES SOME LIVES.

There have been twenty-eight fewer deaths due to automobiles in Cook county to date this year than in the same period of last year. The saving of twenty-eight human lives is something, though it is not much compared to the sacrifice of 400 destroyed. The saving is the result of around public opinion, the operation of safety councils, the application of law, and the education of drivers and pedestrians. It has been recorded in spite of a greater number of automobiles on our streets and highways. It is the outcome of an immense amount of trouble, thought, and effort. And the lives saved are worth all that and more. The saving in the face of increased traffic proves that accidents and killings can be reduced by concerted human effort. That, in turn, proves that the effort is justified and must be continued and extended. Continuation of such a ratio of improvement would make our streets fairly safe in another ten years.

CANADA SHOWS UP MR. DAVIS.

The Mackenzie King government in Canada has tried somewhat the same theory voiced by John W. Davis, Democratic candidate for the presidency, with reference to the tariff.

Mr. Douglas Brewster, president of the Builders' Exchange of Montreal, and a practical man who is not a politician, reveals how it has worked there. He bases his statement upon actual records of proposed new industries or expansions of existing ones. These records, he says, show that construction projects aggregating nearly \$2,500,000 have been abandoned in Montreal and vicinity and that a similar situation exists all over the Dominion as the direct result of the low tariff policy.

Not only has building come to a standstill but manufacturers of building supplies have almost ceased because they can be undersold by foreign competition. Other production is feeling this depression. The loss in wages and circulation of money is estimated at far in excess of the reduction in cost of living. That is what Mr. Davis would give the United States.

FROM THE TRIBUNE'S COLUMNS

60 YEARS AGO TODAY

AUGUST 25, 1864.

WASHINGTON.—Skirmishing was renewed with more vigor than ever in Virginia and the Shenandoah valley and the Union forces advanced on the left. The enemy's fire was mainly directed at the Union center, occupied by the 19th corps. All is quiet on Gen. Grant's front at Petersburg. Gen. Sherman telegraphed from front of Atlanta that everything is going well in his section.

All report indicate that Atlanta will be in the hands of the Union forces within a week or so.

MEMPHIS.—Gen. Forrest with a heavy force of rebel cavalry made a sensational raid into Memphis. They plundered stables, roared their horses into hotel lobbies, ransacked headquarters and carried off the payroll. The provost marshal was kept up for several hours. Finally the rebels retreated and were pursued by the Union forces outside the city, where a battle was fought. The object of the raid was said to be the capture of Gen. Hurst, but he was spending the night away from his hotel and was not taken.

ELGINNTEVILLE, ILL.—The Lake County Union convention named delegates to the eighth judicial circuit convention to nominate a state's attorney. Charles H. Reed of Chicago was chosen for the place. Support of Gen. John F.arnsworth for renomination to congress was pledged.

LONDON.—A Copenhagen dispatch says: "The condition of Emperor Francis Joseph of Austria, according to telegrams received, is much worse. His death is a question of hours."

CHICAGO.—The Oestend correspondent of the Chronicle says that Belgian laborers so far as are estimated at 40,000 killed.

PARIS.—The allied armies along the line from Marseilles to the Meuse have suffered a severe reverse, according to an official statement. The English and French, after fighting both east and west of the Meuse in Belgium, fell back to the "covering positions." Other reverses also were announced. A small unit of Lorraine, Anizy and Disoncourt in the department Meurthe-et-Moselle were occupied by the Germans. The Germans have burned Marche, Monceau, Andlauer, Chatelet, Chatelain and Fontaine-l'Evêque.

CHICAGO.—Major Harrison revoked the license of Friderberg's dance hall, 10 to 22 East 22d street, and "Big Jim" Collier's restaurant and lounge, 2126 Wabash avenue, as a result of the exposure of conditions in the old lunge district by THE TRIBUNE.

25 YEARS AGO TODAY

AUGUST 25, 1895.

LONDON.—The Boers are arming for conflict. Large quantities of rifles and cartridges have been going into the Transvaal by way of the Orange River for several weeks. British troops are being rushed to South Africa.

SEATTLE.—Washington.—Forty-eight middle western men whose search for gold in the Klondike district in Alaska reduced them to physical and financial distress, and who have been compelled to seek aid of the Chinese Chamber of Commerce to return home. Fifteen of them are from China. All are suffering from scurvy, either in mild or violent forms.

CHICAGO.—Major Harrison revoked the license of Friderberg's dance hall, 10 to 22 East 22d street, and "Big Jim" Collier's restaurant and lounge, 2126 Wabash avenue, as a result of the exposure of conditions in the old lunge district by THE TRIBUNE.

ACCIDENTS POINT NEEDS.

An "L" train has been kept from plunging into the river with forty passengers only by dashing it into a steel and concrete bulkhead. The results were grave and a most unpleasant shock to the passengers and to a score of persons standing below and the obstruction of through elevated traffic from the north and south sides for more than three hours. The police say that this is the third time in two months that trains have been run into dangling switches to keep them from running into the river.

If Chicago needs more arguments against the movable bridges this ought to be a good one. Ignoring the delays and costs of time and money for all traffic due to the closing of bridges, the more spectacular point of danger ought to direct public thought to this issue.

Individually there have been too many unfortunate interruptions of the "L" service of late. Fortunately they have resulted in little more than the inconvenience of the "L" services of late.

A LINE O' TYPE OR TWO

How to the Line, let the
spills fall where they may.

CONSPIRACY!

I DON'T feel so bad now about that speech I made to a jury many years ago, the first trial of the Leopold and Loeb trial made me think of it. Especially that part which Mr. Darrow said: "The public are interested and want a punishment. Here are the officers of justice, so-called, with all the power of the state, with all the influence of the press, to fan this community into a flame of hate—who for months have been planning, and scheming, and contriving, and working to take the lives of these two boys."

I was a very ambitious young lawyer, and never had a case of my own. I haunted the circuit court room listening enviously to other lawyers haranguing juries. Finally my pale, wistful countenance got on the nerves of the Circuit Judge. He called me into his chamber and told me he would give me a client. He said my prospective client was in jail and didn't have a cent to pay me. I went right over to the county jail and the sheriff let me go into the hull-pit to talk to my client. He was a very black and very bad looking colored man. He seemed very sad and depressed when I told him the court had appointed me to his lawyer. He said he was most unjustly accused of stealing a horse, but as a matter of fact he had found the animal. I judged he had found the horse in somebody's barn, but it was too bad to let bygones be bygones. It would give me a thrill to see him get out of jail.

People with vitiligo stain the white spots with walnut juice. There is a form of acquired leukoderma caused by syphilis.

CHLOROFORM FOR CHIGGERS.
G. H. C. H. writes: A year ago I read in your column of a tick-bite which rubbed upon the body made it quite safe to go into chiggers infested vegetation. Not since I found it, but this summer we are suffering greatly and would appreciate knowing of some preventive.

REPLY.

I have never had much faith in chlorophyll. One is yellow some: another blue. I used to eat green beans raw, but when I found them Indians who had studied the specimens of White Indians brought here by this expedition had pronounced them Indians who had vitiligo.

As to the first group of stories. For centuries, adventurers and travelers have occasionally reported White Indians as having been seen in the direct neighborhood of tropical regions.

Balfour's says: "Albinos are frequently found in the tropical regions." Dr. Crocker and others have reported cases of Albino Indians; their reports being illustrated by pictures. Crocker says albinism is quite frequent among pigmented people, such as Negroes and Indians.

As to the second group of stories. That the expedition brought Indians with little skin pigment is certain. No one knows the origin of the Indians.

One theory is that they came from the Orient and were originally a yellow-skinned, slant-eyed people.

It is possible they may have been Nordic in origin. We do not know. Still less do we know of the origin of the Indians and Mayas—that were in Central and South America before the Indians.

While it is thought the purest blooded Indians in existence are the San Blas and the neighboring tribes, no one knows how much Maya, Incas, Indian Negro and white has been mixed—even in the San Blas and Darien areas.

That these White Indians represent an evolution from Indian characteristics to just what they want, an illustration of how we have alarmed a perfectly armed nation into arming. Another is a jingo move to give in Japan a stimulus to the popular resentment of American exclusion. If Japan had no military defense other than will be revealed in our defense test its government would be throwing a fit.

CHEEK TO CHEEK WADDLE TO GO: WALTZ RETURNS

Now it's Louis H. Chaff's turn to call one.

This is it. Naughty, lovey dancing is to go and the waltz is to come back into favor. Bestial, jungle-like music of the jazziest kind is to pass and some new, even syncopated music is to replace the dance.

Not a new joke—for every year dancing masters announce that this winter is to see the end of the cheek to cheek and knee to knee wabbling. Mr. Chaff is the national president of the American Federation of Dancing, which for the first time in thirty-five years has come out into the bisterland, away from New York, for its annual convention. A very ex-

clusive society it is, with only 150 members, and those members by invitation. They come only from the big cities and they must have big local reputations.

Meet the New Tango.

So perhaps if they say the waltz is coming back, it may not be such a joke. Especially do they want to hit dancing all over again on a dime size of space, has a nickel space at the end of the party. As a substitute R. L. Burns of New York, Tuesday morning, is going to introduce the Rosita tango for trot.

It's danced best to "Rosita", or tunes of that tempo, and is a free swinging, simple yet very showy and gay dance.

Other dances are planned for the convention to adopt and come back to all the corners of the United States.

Dancing position must be improved, that is, arms should not be wrapped about the partner's, and the bodies of the partners must not be pressed together. Shoulders must be taught not to shake. Neither must other parts of the body in dancing.

Dancing must include the whole floor—a couple must not dance in one spot.

And lastly, the bodies of the dancers must have a space between.

Stop Thee Braying.
Jazz music, meaning what jazz music is, good and must stay, Mr. Chaff says, but the inharmonious braying noises, that rouse only wild and unnatural emotions in the dancers, must be discouraged. Dancing, he says, is to ovaries and not to make bestial—and the reason for the effect he attributes to the lowest forms of dancing.

The reason the old forms of dancing are gone and the reason no pretty new dances have been originated, this master of the dance says, is banfulness. Young dancers have become too lazy and too self-conscious to learn difficult steps, the minister of education in Peking has addressed an order to provincial officials advising against further dispatching of students to the United States and recommending that the officials discourage students from going to America rather than to Europe. The ministry's statement deplores the fact that the Chinese students in the United States, saying that college courses there are inefficient and degrees easily obtained. The ministry also deplored the practice of adopting foreign names and American customs.

CHINESE URGE STUDENTS NOT TO GO TO AMERICA

[Chicago Tribune Foreign News Service]

SHANGHAI, Aug. 24.—One hundred and eighteen Chinese young men and women just home from America aboard the steamship President Jefferson this fall in various colleges and universities of the United States. Owing to a special order from the state department, waiving a clause in the new immigration law, practically all will now reach America in time for the opening of the college year.

The ministry of education in Peking has addressed an order to provincial officials advising against further dispatching of students to the United States and recommending that the officials discourage students from going to America rather than to Europe. Young dancers have become too lazy and too self-conscious to learn difficult steps,

Jostled on L Platform; Wallet with \$140 Gone

Max Swart, 231 Wrightwood avenue, was waiting for a train at the Belmont L station yesterday when some jostled him. When Max next felt for his wallet he found it had lost \$140. George Rosenfeld, 1945 Waveland avenue, reported that he was robbed of his wallet containing \$200 on a Lawrence avenue car. He reached over to pick up a transfer a man ahead of him dropped.

AMERICAN LEGION IS FOUR-SQUARE FOR DEFENSE DAY

National Commander
Makes It Known.

Washington, D. C., Aug. 24.—[Special.]—Approval of the defense test program of the war department is given by John R. Quinn, national commander of the American Legion, in a letter to Mrs. Anthony W. Cook.

"I am unqualifiedly in favor of this demonstration, because I believe it is the only way to prove that our system of national defense is adequate," Mr. Quinn says in the letter. "The American Legion does not want war."

"There is no organization which desires more strongly to see world peace, but that does not mean we are pacifists, nor does it mean we are in favor of disarmament in view of present conditions."

NEARLY PERFECT BABY GOES AT AURORA'S FAIR

(Pictures on back page.)

Only a tiny mole found on her back prevented Ada James' Thomas from being declared the most nearly perfect girl, physically, the judges at the Central States fair and exposition at Aurora, Ill., had ever seen. She is the daughter of Mr. and Mrs. Jesse E. Thomas of Sugar Grove, Ill., and she was rated 99.9 per cent perfect; the mole lost one-tenth of 1 per cent for her.

Ada was an entry in the better babies conference. She is 33 months old. Even with the tiny mole she was declared to be the only baby to rate a high in the history of the conference.

Her description follows: Eyes, brown; hair, golden; height, 35 $\frac{1}{2}$ inches; weight, 28 pounds; chest, 19 $\frac{1}{4}$ inches; arm, 14 $\frac{1}{4}$ inches; leg, 18 $\frac{1}{4}$ inches; head circumference, 19 $\frac{1}{4}$ inches; abdomen circumference, 18 $\frac{1}{4}$ inches.

Country girls babies scored higher than rural boys or than either city boys or girls, the judges announced. Of the 700 entries, 200 were city babies from Chicago. Of these Margaret Louise and William Gustav Thor Jr., children of Attorney W. G. Thor, 2210 Cortes street, were second in the twin glam, scoring 96.3 points.

*Live Where
Life is
Worth Living*

Get away
from the noise
and dirt of
the city. Come out to
this beautiful,
healthy section, where
the children and family will have an opportunity to grow and prosper with the community, with proper and congenial neighbors.

Here's what you get—

**Big $\frac{1}{4}$ Acres
Now Only \$395
\$60 Down \$6 a Month**

In this fast developing section, closer, maneuvered in minutes and convenience, to the loop than many parts of Chicago. Over 200 trains daily on the Northwestern R. R. and L. frequent express service.

Cement sidewalks are in and paid for. Sewers, water, light and street paving are provided for under special assessments. Modern homes, churches, schools, banks and other conveniences are already here—not promised.

Just think of it! Choice $\frac{1}{4}$ acres in this wonderful section, in a beautifully planned residential neighborhood where values should double in the next few years, yours for only \$60 down and \$6 a month.

You can easily set aside this amount. Now is the time to buy before prices are advanced. You must see this property to appreciate this remarkably low price. Mail the coupon today.

SPLIT IN RANKS OF CALLES' PARTY AROUSES MEXICO

(Chicago Tribune Foreign News Service.)

MEXICO CITY, Aug. 24.—While Gen. Plutarco Elias Calles, president-elect of Mexico, is touring Europe, the split in the ranks of his political supporters daily widens.

The political situation has taken a decided turn. Less than a week remains for the electoral college to pass on the credentials of the chamber of deputies, and there still remains more than 150 claims to seats to be passed on. During the last week the college averaged fewer than six credentials a day, which gives a clear indication of the enormity of the task before it.

Many political observers profess to attribute Gen. Calles' trip to Europe as being due to his fear of being asked to side with one or other of the factions in his party. The agrarians and labor on one hand, or the confederated socialists, the less radical group, on the other.

BURGLARS BORE WALLS TO EMPTY WINE CELLAR

(Picture on back page.)

Burglars bent on stealing eighty barrels of wine, were disappointed last night when, after hammering their way through a brick wall, they found the wine cellar of the Many Blane company, 224 West Huron street, wholesale druggists, empty. According to officials of the company, a carload of wine was to be delivered last Saturday, but was delayed.

Lieut. Charles Egan and his squad from the detective bureau arrested three men in connection with the attempt in the attempted robbery. They are: J. McElvey, 423 Baldwin avenue; Irvin Schill, 161 West Schiller street, and Louis Cella, 858 Fullerton avenue, well known whisky thieves.

FIVE BANDITS GET \$47.
Five men accused Charles Monroe, 1801 North Prairie avenue, early yesterday morning at East 18th street and Indiana avenue and robbed him of \$47.

CRACK CAVALRY AND POLICE TO RIDE FOR HONORS

When the carnival and industrial exposition opens next Saturday at the North Shore Polo grounds some fancy riding exhibitions will take place when the Chicago mounted police will compete against the crack 4th cavalry division.

Capt. Hogan's organization is one of the best trained and most daring in the police department. Col. Thomas' men will have their hands full and may be in for a pleasant surprise when the Chicago coppers unmind. An arrangement by the North Side business men and sportsmen have been made for a number of amusements.

Gen. Pershing will be a guest of the 4th cavalry, and the men will be admitted free. Boy Scouts in uniform will be allowed on the grounds without charge. A large display of fireworks will be given.

STOWAWAYS ON U. S. ZEP TO GO VIA PARACHUTE

FRIEDRICHSHAFEN, Germany.

Aug. 24.—(By the Associated Press)—Any stowaways found on board the dirigible ZEP-3 after the aircraft starts for her hangar in Lakehurst, N. J., there to be turned over to the United States navy, will have a parachute attached to them and tossed overboard.

This announcement was made today by officers of the Zeppelin plant, who are the airship in building bullet. Owing to the fact that thousands of applications have been received from persons desiring to make the voyage, the Zeppelin officials think that numerous efforts will be resorted to by stowaways to hide aboard the ship.

The personnel for the flight over the seas, it is announced, will consist of seven German officers, and men. The American on board will be Capt. George W. Steele Jr. and Lieutenant Commander Sydney M. Kraus, U. S. N., and Maj. Frank M. Kennedy, U. S. Army.

GORGEOUS PAGE ADmits POLICE; 3 GIRLS NABBED

Cops Raid Mystery Flat
in Rogers Park.

When Sergeants Coombs, Hefberg, and Griffen of the Rogers Park station responded at the number and fire escape of men callers at 1656 Juneau terrace, they decided to investigate. Saturday night they called, going to both the front and rear doors simultaneously.

Door Opened by Page.

The front door was opened at their ring by a boy page gorgeously attired in silk, long white hose, and much red braid. They were escorted into a sumptuously appointed apartment, where lights glowed softly from shaded lamps.

And then as they were seated and told to wait a flimsily dressed young woman appeared at the call of the page. At the same time an insistent rapping could be heard at the rear door.

"The place is pinched," announced the police in a disturbing sort of tone.

Three Girls Arrested.

Three girls, whose names as Katherina McDonald, Mary Keane, and Florence Johnson, two men visitors, the page and three keepers, said to be Walter Peterson, 4507 Clifton avenue; Arthur Williams, a taxicab driver, and "Wally" Snyder, were arrested.

The boy page said that his name was Eugene Kibet, and that he had been taken there by a taxicab driver, who had been wandering in Lincoln park. The police believe the boy escaped from a reform school near Des Moines.

Washington, D. C., Aug. 24.—(Special)—Women of Wisconsin are by no means unanimous for the La Follette-Wheeler ticket, according to Mrs. Anna Monahan Wendt of Wausau, Wis., who is a visitor at Washington headquarters of the Republican national committee. Mrs. Wendt is president of the Coolidge-Dawes club in her district.

"Wisconsin women are weary of having their state held up to ridicule through the activities of La Follette followers, and as a result the women there are going to make a determined drive for President Coolidge," declared Mrs. Wendt.

"I assure that the women of Wisconsin, many of them disgusted with the activities of the La Follette followers, are going to see to it that women voters are aroused from apathy and convinced of the importance of voting. There has been a lethargy when it came to voting, but we are going to do our utmost to get the women of Wausau to vote this year."

Mrs. Wendt said that women supporters of La Follette in her section seem disinclined to let their sympathies be known.

"With plenty of intensive work to show the achievements of the administration I am sure that Wisconsin will vote for Coolidge," Mrs. Wendt insisted.

Marines Ready for Their March to Old Battlefield

Quantico, Va., Aug. 24.—Marines at their corps base here will break camp at daylight tomorrow to begin a march to Sharpsburg, Md., where the annual maneuvers will be held in the civil war battlefield of Antietam. The force will be composed of 3,000 marines, including all branches of the service. First stop will be made in Washington, where camp will be pitched in East Potomac park. The marines will parade in Washington Tuesday.

A STARR BEST COMPLETE OUTFITS for Boys and Prep School Lads

ANSWERING every need of the growing boy has been this store's purpose and incentive for over twenty years. We have accomplished this not only by gratifying parents—whose sense of values always leads them here—but by making an enthusiastic friend of the boy himself. We offer him sound values now, that we may have his patronage in the years to come. School equipment for Fall demands exacting care in selection—durability being closely allied with good looks. All our merchandise is of a standard much higher than that offered by boys by the average store.

LEGION CONTEST FOR COMMANDER GROWS WARMER

Claude L. Foubare Third Contender for Honor.

An additional contender in the election of state commander of the American Legion, to be held at the convention at Chicago, opening on Sept. 2, developed yesterday in the person of Claude L. Foubare, 1925 Argyle Street, who directed the work of some forty ex-service organizations in seeking clemency for soldier prisoners at Lexington. The entries in Mr. Foubare's swelled the list of candidates for the highest state office in the organization to three. Candidates already announced are those of Harry A. Newby, Chicago attorney, and Howard P. Savage, also of Chicago, present senior vice commander.

Served in Tank Corps.

Mr. Foubare served overseas with the 35th tank battalion. He was mentioned last year, but declined to run as sentinel generally in the election of a commander. His friends yesterday asserted he has received the endorsement of many downstate posts.

Spurred campaigning in behalf of Mr. Savage was manifest yesterday in Legion circles. He is a member of the University of Wisconsin where he took a leading part in athletics. He served as an officer of engineers, and is now superintendent of maintenance of the Chicago elevated railway.

His friends claim for him an enviable record in his previous position as state vice-commander, he having given it as asserted, the closest cooperation with Col. John J. Bullington, the commander.

Fought for Bonus Bill.

Mr. Newby, who is affiliated with the North Shore post, was particularly active throughout the fight to put over the bonus bill, and it is announced he has many posts throughout the state pledged to his candidacy.

HOLD UP BY COLORED MEN.
John C. Johnson, 5530 Lincoln Avenue, was taken by four colored men at 40d and South State streets Saturday night. They got \$25.

MRS. SAGE, WIFE OF MOONSHINER, UNDER ARREST

Mrs. Irene Sage, wife of Frank Sage, alleged moonshiner who was shot in a battle with detectives Saturday night, was arrested yesterday by Chicago avenue police. She is

charged with selling and possessing liquor.

At the same time the officers took into custody three men who they say were drunk in the Sage flat. They found drinking in the flat, which was the scene of the gun battle only the night before. They gave the names of Michael McKeon, 45; Cliff Bramlett, 30, and Harry Mills, 34.

The trio will be arraigned today.

Two Negroes Sentenced to Chair for Murder

Lexington, N. C., Aug. 24.—John Lakes and Kenneth Hale, Negroes, were found guilty of first degree murder in connection with the killing of John Garwood, white taxi driver of Lexington, three weeks ago. Both were sentenced to be electrocuted Oct. 9.

"You'd Better Get Busy" Just Six More Days of Hassel's Shoe Sale

Open Saturday nights till nine

Pictured above you have the "Glasgow" at \$4.85; a new fall Brogue with a true combination of style, comfort and dependable quality. A fine example of the values to be had in the final days of our sale. In finely finished imported calfskin; tan or black.

AMERICAN DYES STRIDE TO FORE, CENSUS REVEALS

Start After Trade Once
Held by Germany.

Washington, D. C., Aug. 24.—(UPI)—Enormous strides made by the American dye industry are shown in the census of dyes and coal tar chemicals for the calendar year 1923, which is about to be issued by the tariff commission. The report shows a record output with conspicuous progress in production for the first time in the history of many important dyes and other synthetic organic chemicals as well as a further reduction in selling prices.

Various factors, some of which were not anticipated, have enabled the domestic industry, a war time development, to achieve success in its fight to establish itself permanently in face of German competition. The more important factors responsible for the large output in 1923 are enumerated by the commission as follows:

Activity of the domestic textile and clothing industries; the location of the Rohe, which entitles a reduction in the output of the German dye factories; and relatively high foreign price levels of dyes compared with those of the pre-war period.

Develop Export Trade.
Dyes produced in the United States supplied about 94 per cent of the apparent consumption in 1923 and in addition American manufacturers enjoyed an extensive export trade.

The domestic production of dyes in 1923 by eighty-eight firms was \$2,487,654,000. In 1922 the amount by eleven firms was \$2,446,187,000. The total sales for 1923 were 17,307,444 pounds with a value of \$47,331,611. Pre-war production in the year 1914 by seven firms was \$6,618,729 pounds valued at \$3,470,696.

The average sales price of all dyes in 1923 was 54 cents per pound compared with 56 cents in 1922, 53 cents in 1921, and \$1.06 in 1917, the first year for which a census of dyes and coal tar chemicals was compiled.

New Products Entered.
During 1923 nearly 100 dyes were produced for which no production in the United States had been shown in 1922. In addition, other dyes, which had been reported previously in small quantities, were manufactured on a substantial commercial scale. The output of coal tar dyes in 1923 was 17,307,444 pounds with a value of \$47,331,611, compared with a total of \$2,354,127 pounds at a value of \$1,984,442 in 1922.

In the report the tariff commission reviews the story of the strange hold formerly held by Germany on the world's dye markets up to the time the German product was cut off by the

PARENTS FEAR BOY, 12,
MAY HAVE BEEN HURT
"BEATING" HIS WAY

Alexander Ignatowicz, 12 years old, 614 West Forty-seventh street, came from his home a few weeks ago. His parents asked the police yesterday to find him. He had been in the habit of running away, his way was to take on railroad tracks. His parents fear he may have been killed or injured. He left home July 14, informing his parents that he was going swimming. He has not been heard from since.

war. The commission expresses the hope that Germany will make every effort to regain her lost export trade in dyes, amounting to about nine-tenths of her total trade.

Pistol Drops from Pocket;
Owner Gets Grave Wound

Peter Pochron, 19, 11255 Indiana avenue, had a penchant for toting an automatic pistol. Early yesterday his automobile stalled in front of 536 W. 11th street. He got out to crank it and the pistol fell from his pocket. The pistol was discharged. Pochron is the Elmhurst community hospital where it is said his condition is serious.

A NATIONAL DISH

Probably the most typically American thing a summer visitor from Europe will see is the eating of green corn in public dining rooms all over the country;

For, of all things edible, corn is the most thoroughly American, And nowhere is it more delightfully prepared and temptingly served than at CHILD'S.

Fresh green corn—baked, creamed or popped—made daily.

Borden Yacht Party Promises Good Time for Fortunate Guests

Those favored ones who have received invitations to the social party which John Borden plans to give during the polo matches at Westbury, Long Island, must consider themselves very fortunate. Indeed, as the Borden invitation is well known, Mr. Borden has chartered a cruiser which is to be anchored off Long Island and at which the party will cruise during the intervals between the games which are to be played on Sept. 6, 7 and 12.

The most obliging gentleman with the reminiscences of English accents announced Mr. Borden's downtown telephone number and gave me the information and answered my other queries concerning the Borden affair. I learned that Mr. Borden was to have met his clever writer sister, Mrs. Edward Lewis Spears (Mary Borden of London when she landed in New York. He returned last Thursday and will be a participant in the pre-tournament invitation polo tournament this week before he goes east again on the Meadowbrook road. Mrs. Spears is with her mother, Mrs. John Borden, at Canfield, Me., and is awaiting her husband, Gen. Spears, who will arrive this week. The Spears will surely be among the yachting party and afterward come west, when they will doubtless be taken down to the Borden place in Mississippi for part of their western visit.

By the way, in view of the contradictory spelling of the Spears' name as it appeared in the papers recently, it was formerly Spiers, an Irish name, and has been changed to the Anglicized form.

Reservations for Mrs. John Borden's summer trip from Europe with her two daughters, Ellen and Mary, are for Sept. 26, when they have their choice of sailing from Charbourg or the English port.

The Owensville invitation polo tournament which is to open tomorrow may break the lull which seems to have settled over Lake Forest this summer. Last year there were some things so quiet. The six teams to compete in the matches are the Miami Beach Club of Daytona, O., the Gramercy Farms team, Sixth Army Corps, Wauconda Hunt club of Des Moines, Ia., and the two Owensville teams, the Blues and the Whites. Quite a lot of entertaining is being planned for the visiting players, as the games probably will be played off in small around Labor Day.

Mrs. George R. Foster of 1812 Dearborn parkway and her son are the guests of Mrs. George L. Taylor of Great Barrington, Mass.

John E. Drake, with his two daughters, Elizabeth and Katherine, and their cousin, Helen Franklin, have returned from a month's stay at the J. Y. ranch near Tucson, Ariz. Mrs. Drake, who has been in the east, also arrived in town the end of the week. Mrs. Drake and the two girls will now be plunged into the task of preparation for going off to school. Elizabeth is to depart in September for Miss Elmer's in Rome and Katherine will return to Hutchinson.

Mr. and Mrs. England Hastings of Highland Park are at Ephraim, Wis., to remain until after Labor day.

Miss Fannie of "The West" will remain at the hotel a short time at Derby, Vt., for a short visit at Boston, Mass., to play golf and meet some Chicago friends. Mr. and Mrs. Foster and their daughter, Miss Katherine Sheldon, who have been in Vermont since June, plan to return to Chicago in September.

Mr. and Mrs. Charles H. Hanes of 1422 Lincoln terrace.

ENGAGED

Miss Ellen Buford Franklin.
(Chambers Photo)

Mr. and Mrs. Walter Murray Franklin of 1649 Pratt boulevard announce the engagement of their daughter, Ellen Buford, to Louis C. Williams, son of Mrs. Preston H. Williams of 1422 Jonquil terrace.

Wife Who Can't Be a "Good Sport" Is Left at Home Alone

BY DORIS BLAKE.

A young wife, who signs herself "A Reader," confides she is 21, and has been married two years. For the last year and one-half she has spent most of her evenings and all of her weekends alone because she cannot conceal her desire for drinking and bad language and smoky烟。 That's the sort of thing she calls homecoming, and considers as contributing to a good time. Consequently, he goes alone and enjoys himself.

"Here's Sunday again," she writes. "And I am alone, and I can't help thinking of the pleasant time I might have had if I had made some one with a taste for dice and fun. We had a heated argument this morning. He said I was not a good sport; that I was a prune and home was the place for me until I had learned what it is not to be a killjoy. I tried it for awhile but it isn't in me to like that sort of thing and I simply can't join it."

Rather an unhappy position for so young a woman to find herself in, isn't it? The real solution undoubtedly would have been found before the mismated pair went to get the license. One of the advantages of knowing a man perfectly before marriage is to know him well enough to know what are. A young man, by the quality of his friends, gives indication of his own character. If they are of the loose-lipped, roistering variety, it is a fairly safe bet that will be the atmosphere into which the bride will be thrown. If he is without friends, it reveals a character that bears some investigation. It may be that he is a drunkard, or a gambler, or a scoundrel. All the same, O. Henry's famous line found in "The Gift of the Magi" is true: "What do I like best in Vanderbilt?" My dear Miss Sally: Behind thousands of dazzling, taunting footlights, is a different world from our own, a world of happy laughter and delightfully good dispelling songs and jokes, a world of elated dancing. All the same, O. Henry's famous line found in "The Gift of the Magi" is true: "What do I like best in Vanderbilt?" My dear Miss Sally: It is like ice cream, and custard pie and circuses and I like everything about it.

LILLIAN A.

Dear Miss Sally: Would you like to know what I like more than a vaudeville show? Two vaudeville shows. Miss Sally.

First of all I like a show with variety and the vaudeville acts are different from each other. I like to have a new and fresh thrill at each change.

I enjoy the funny black faced men with their wit and nonsense; I like to watch the graceful dances; the one act playlets interest me immensely.

Now, once the knot has been tied, I like to go to the theater and depressed tastes in pleasure.

Should she go along with her husband and play the game as he plays it?

ROBIN D. DOUBT.

Dear Miss Sally: I am in love with a girl who is 18. I am 20. Sometimes when we have a date she does not meet me, and sometimes she goes out with other boys. But she loves me. What do you think?

I think I would be a bit skeptical.

She might keep waiting at the church. Ned, and that often causes a lot of publicity which you might not like.

HOWARD G.

company proved more agreeable. Why worry about what is past?

WHAT'S WRONG HERE?

Washington, D. C., Aug. 18.—(Special.)—The President and Mrs. Coolidge, accompanied by their son, John, will return in time to greet the Prince of Wales when he comes to Washington to pay an official call on the President, either on Aug. 29 or Aug. 30. The present plan is that his son, John, will give a formal reception by the President in the White House, followed by an informal luncheon, with the prince the only guest.

Secretary of the Treasury Mellon accompanied by his son, Paul Mellon, will sail from England for New York Tuesday, aboard the liner *Carpathia*, two days later than originally planned. Miss Alice Mellon, daughter of the secretary, will remain in Europe until the end of September.

The assistant secretary of the navy and Mrs. Roosevelt returned yesterday after an absence of ten days. Mrs. Roosevelt has been visiting in Vermont and Col. Roosevelt has been in New York state.

**TO BOX
MAN AT
FRIDAY**

ECKERSONS.
The Rockford boxer, from a bantam-weight in the last match of New York, has been matched to meet in Mullen's boxing Friday night. They are and weigh 125 on the afternoon match.

In some of the best men Mickey Wallen, no doubt, will be round down and won over by his son. Among other men Herman has defeated Pat Moran of Williams, and

Here Today.

He training today he Herman will be

according to the pro-

gramme remain-

ing tomorrow.

He will probably be a fellow California, Cranston Holman of San Francisco, who a fortnight ago was runner up to George Lott Jr. in the national junior singles champion ship, and with Emmett Pare of Chicago was runner up for the doubles honor as well as being former national public parks player.

May Play Jack P.

Jack Harris, ranking Chicago player, may be elected to play Helen in the event Holman is unable to play.

The selection of a man player to oppose Helen was made because neither Chicago nor the middle west could supply a player of her caliber.

All of Chicago's tennis leaders have signed their intention of being on hand for the court exhibition. Northwestern university sisters of Miss Wills in Kappa Kappa Gamma are planning to attend the match in a body.

Second Skokie Match.

This will be the California university co's second appearance on the Skokie courts. A year ago she cannned through the opposition to win the Illinois state women's championship, going through to her final match without loss.

Since the last appeared on a court she has won national and Olympic honors in singles, doubles, and mixed doubles, her latest achievement being the last named honor, which she acquired Saturday with Vinny Richards.

TRAPSHOOTERS BEGIN POPPING TARGETS TODAY

Dayton, O., Aug. 24.—Jay Clarke Jr. of Worcester, Mass., will deliver the remote address at the dedication of the new permanent home and trap shooting grounds of the Amherst Trapshooter association here tomorrow morning before the start of the national trapshooting meet.

The opening event of the meet will be the Dayton introductory and will consist of 200 targets.

The meet will last six days, nine championships being held in that time.

The big event of the week is scheduled for Thursday. It is the Grand American handicap and will over 1,000 shooters will try for medals in this event.

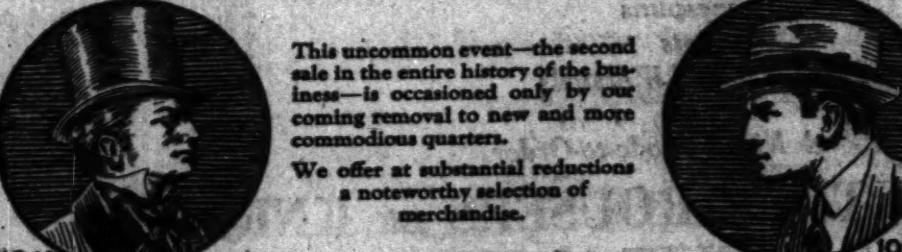

PADDOCK TO RUN IN A. A. U. MEET

Newark, N. J., Aug. 24.—Charley Paddock, Los Angeles A. C. sprinter who yesterday established a new record for 250 yards at Travers island, N. Y., tonight said that he had decided to compete in the national track and field championships of the A. A. U. to be held at Colgate field, West Orange, three days commencing Sept. 5.

Chidley and Wells Tie in Shoot With 142 "Birds"

S. Chidley and Dr. H. G. Wells tied for high gun honors yesterday at the Lincoln park traps, both breaking 142 targets in the 150 bird event. C. G. Burmester, 130; Kammerer, 128; E. Hall, 127, and Erickson, 125, were other leading shots. In the 25 pair doubles, Judd and Chidley shared first place with 44 apiece.

**HELEN WILLS TO
PLAY MALE RIVAL
AT SKOKIE TODAY**

Helen Wills, queen of the tennis world, will steam into Chicago this morning on the Twentieth Century limited, and this afternoon will play an exhibition match on one of Skokie's clay courts. Fresh from Europe and the east, where she took every honor a woman tennis player may expect, Miss Wills will play an exhibition, before a large Chicago following at 3 o'clock this afternoon.

HELEN WILLS.

[TRIBUNE Photo.]

Her opponent will probably be a fellow Californian, Cranston Holman of San Francisco, who a fortnight ago was runner up to George Lott Jr. in the national junior singles championship, and with Emmett Pare of Chicago was runner up for the doubles honor as well as being former national public parks player.

May Play Jack P.

Jack Harris, ranking Chicago player, may be elected to play Helen in the event Holman is unable to play.

The selection of a man player to oppose Helen was made because neither Chicago nor the middle west could supply a player of her caliber.

All of Chicago's tennis leaders have signed their intention of being on hand for the court exhibition. Northwestern university sisters of Miss Wills in Kappa Kappa Gamma are planning to attend the match in a body.

LOCAL GOLF

*C*LUBS in the Women's Western Golf Association will compete over their courses today in the annual par tour competition in which teams of four play from scratch against the par of the course. Olympia Fields, which won last year, again will have a strong team headed by Mrs. Melvin Jones and Mrs. E. E. Harwood.

Play in the fifth annual women's public park championship will begin at 9 o'clock this morning at Jackson park. It is held over the same course used in the annual golf tournament.

The strong team of Gloucester and Nova Scotia have apparently agreed to forget their differences and revive the contests that were the talk of the day along both water fronts.

Capt. Marty Welch, who first won the Halifax cup with the American Fishermen's Esperance and Capt. Angus MacLennan of the McLeods, have been confering. Capt. Walters expressed the desire to revive the annual fisherman's contest by racing Blue Nose against Columbia again this year, thus setting last year's most unsatisfactory contest.

Eager to Renew Race.

When Capt. Welch communicated his desire to Gloucester fishermen they were more than eager for the race.

While Capt. Walters is confident that such a race will demonstrate that Blue Nose is the champion fisherman of the North Atlantic all Gloucester feels that Columbia is entitled to that title and will prove it when the two vessels come together.

Both teams will be racing for the title of the best boat of Nova Scotia and while Gloucester would like to see the battle off its own cost, it will waive that fee for the sake of getting the two ships together.

Columbia is reported now on her way home from the fishing grounds with 250,000 pounds of mackerel.

Her arrival will be expected the 21st instant. Individual hand-to-hand racing will get together and agree definitely on the terms and time of the race.

Comer on Date of Race.

The American race committee is expected to confer with the Halifax officials to date the tournament.

American fishermen generally hold the practice of a renewal of these annual international contests with un concealed joy. They are naturally sportmen and love nothing quite as much as a good race between vessels built for the fishing trade.

LOCAL TEAMS DRILL FOR NATIONAL MEET

*W*HEN the National A. A. U. outdoor track and field championships are held in New Jersey on Sept. 5 and 7, under the auspices of the Newark A. C., leading athletes of the middle west will compete for the various clubs universities and colleges.

The strong I. A. C. team, coached by Capt. Fred J. Stagg, of the Central A. A. U. title at Stage field last Saturday, will make a great effort to retain the team honors won in the last two years. The tricolor will be represented by sumptuous winners in Tom Lieb, Gus Pope, Jim Ray, Ivan Riley and others. The team will resume training today and leave for the east in a few days before the opening of the games.

G. A. A. to Send Team.

The C. A. A. runner-up to the I. A. C. in the central association games, will be represented by a number of its best performers including Fitch in the quarter mile, Mayers in the pole vault, Dewey Alberta in the high jump and running hop, step and jump, and the 100 and 200 yards.

Quinnies in the Hillside club champion tournament follow: Ralph Kunstadter, Walter Becker, John Jones, Nathan Ascher, Alvin Johnson, Artie Steiner, Fred Lindgren, Frank S. and A. G. third, Walter Lindgren, Franklin S. and A. C. third.

5 U. S. OLYMPIC MERMAIDS ARE BARRED BY A. A. U.

Atlantic City, N. J., Aug. 24.—(Special)—Six American women aquatics, including five members of the 1924 U. S. Olympic swimming team and Eleanor Uhl Gash, former Philadelphia Mermaid Queen, A. A. U. star, will be indefinitely suspended by the Middle Atlantic association of the Amateur Athletic unions for participation in an amateur competition held last Friday night at Ocean City.

Definite action is to be taken to bar the swimmers in question from competing in championship events during the next twelve months, according to Luke J. Smith of Philadelphia, an official of the Middle Atlantic association.

May Be Expelled.

The participation of the world's champion mermaids in an unanctioned swimming meet at Ocean City has been presented to the A. A. U. by the Middle Atlantic association, and an inquiry has been ordered which will move than likely result in the expulsion of those who competed at the shore Friday night," declared Mr. Smith here today.

Miss Ethel Lackie of the Illinois Athletic club, 1924 Olympic title holder, established a new world record of 1:04.15 in swimming 100 yards at Ocean City last Friday, it is included in the list of ineligible swimmers.

Gertrude Also Barred.

The other water spirts are Miss Gertrude Ederle, American quarter and half mile champion; Miss Lillian Maud, former intercollegiate aquatic queen; Miss Doris O'Mara, 100 yard junior back stroke title holder; Miss Ethel McGary, American long distance champion, and Miss Virginia Whitman, holder of the 220 yards junior national free style title, all of New York.

Miss Charlotte Einstein of the Women's Swimming association of New York, who accompanied the team to Ocean City, declared today that she was under the impression that the tank meet had been properly sanctioned, but admitted no prizes were awarded and the mark set by Miss Lackie was thought to have been off.

MARY MORDT IS DIVING WINNER IN BEACH MEET

Many Mordt of the Sherwin hotel won the girls' fancy diving contest in the swimming meet at Sherwin beach yesterday afternoon, while the men's diving event went to Gene Hamilton of the Chicago A. A. The canoe sailing race of the Olympic Canoe Club was captured by Harry Malish, sailing the Imp, second. Another swimming meet is to be held at the beach again Sunday afternoon, beginning at 2 p. m. Summaries:

50 YARD FREE STYLE—GIRLS—Won by Mary Mordt, Sherwin hotel, 1 min. 10 sec. 2nd, Evelyn Campbell, 1 min. 12 sec. 3rd, Sherwin hotel, second. Time, 1:45.

50 YARD FREE STYLE, MEN—Won by Harry Phillips, Calvary beach; Paul Corbett, Sherwin hotel, second. Time, 1:17.

500 YARD FREESTYLE, WOMEN—Won by Mary Mordt, Sherwin hotel, 1 min. 10 sec. 2nd, Evelyn Campbell, 1 min. 12 sec. 3rd.

FANCY DIVING, WOMEN—Won by May Mordt, Sherwin hotel, 1 min. 10 sec.

FANCY DIVING, MEN—Won by Gene Hamilton, Chicago A. A.; Paul Corbett, Northwestern University, second.

50 YARD FREE STYLE, WOMEN—Won by Mary Mordt, Sherwin hotel, 1 min. 10 sec. 2nd, Evelyn Campbell, 1 min. 12 sec. 3rd.

500 YARD MARATHON—Won by Paul Corbett, Northwestern University; Larry Phillips, second.

PICKED YANK POLO TEAM WINS

Port Washington, N. Y., Aug. 24.—A picked team of American polo stars administered a sound beating today to an English polo team which included two of the international stars prominent for the challenge matches with the United States. The Americans won, 14 to 6, in a spectacular six chukker match before a crowd of 9,000 at Fleischmann field.

Bambino Will Hit Homers for Kids' Benefit on Coast

New York, Aug. 24.—Assuming the approval of Judge Landis, Babe Ruth today accepted an invitation to play in exhibition games at San Francisco for the benefit of the poor and orphans shortly after the next world series.

CHEYENNE WINS.

Denver, Colo., Aug. 24.—The third day play here today of the Denver Post baseball tournament, which the Cheyenne Indians defeated Cascades, Wyo., 5 to 2, and Greeley, Colo., won from Fort Collins, Colo., 4 to 0.

TWO SWIM CHAMPS LOSE THEIR CROWNS; BOB SKELTON BEATEN

BY FRENCH LANE.

The final week of Chicago's long racing season of fifty-two days will be ushered in at Hawthorne today.

The \$15,000 Labor Day handi-

cap, featuring Richard Morris,

Hornbeck back stroke titlist,

placed third to Conrad Mills of the I. A. C. and Omer Miller of the C. A. A.

The defeat of Skelton was the big upset of the day. The young I. A. C. star is the first American to win in international competition at the breast stroke and was considered unbeatable.

The Illinois A. C. relay squad, composed of Buddy Wallen, Perry McGivern, Sam Graller, and Norman Ross, easily retained their title, winning the \$50 relay event in 10:27.2, just two seconds slower than the record.

Summaries:

200 YARD BREAST STROKE—Won by John T. Moore, I. A. C.; Omer Miller, I. A. C. third. Time, 1:04.1.

440 YARD BREAST STROKE—Won by Richard Peterson, Griffin, 1st; F. L. second. Team, third. Time, 10:07 5-5.

FARM AND GARDEN BY FRANK RIDGEWAY

ALCOHOL AND FORMALIN USED TO KILL BEE PEST.

A REBELLION against bees disease is being made in various parts of the United States, using a new method recently discovered.

Apartists at the state college of agriculture in New York are planning to build a portable outfit which will enable them to spray to inspect and destroy infestation in diseased colonies.

County agents in New York state are cooperating with the college in the campaign.

A volatile liquid disinfectant, similar to the one now being used by Illinois and other midwest beekeepers, is being employed by the eastern beekeepers of the thymol-formalin.

The Edgewater Beach Hotel handicapped for Saturday is also coming in for much attention, and as its running is to be made a society event for folks along the north shore, it may develop into one of the most interesting races of the season. Its value will be \$2,000.

While the treatment is made up of 60 per cent grain alcohol and 20 per cent formalin.

The treatment is simple but effective in killing the bacteria that cause American foul brood. After the honey is extracted the combs are dropped into a tank containing the alcohol-formalin solution, where they are soaked for four hours. The liquid is then taken out, the solution dried in the air; the liquid evaporates, leaving the combs sweet and clean, experts say. The bacteria are harmless to man.

Many to Go to Aurora.

WHEAT DECLINES AT WEEK END; CORN ALSO DOWN

BY CHARLES MICHAELS.

A marked change has come into the grain trade within a week.

Where there seemed certainty of higher prices a week ago, there now is uncertainty for the immediate future, and less confidence in higher values for wheat in the distant future. Corn and oats prices are expected to decline.

Wheat prices at the present top were up 22 or more from the low price of the season. Corn had advanced 48¢ to 83¢ on oats, 15¢ and rye, 32¢ to 33¢ for nearby delivery.

The market has declined following the basis of 12½¢ to 13½¢ from the high point on wheat, 12½¢ to 14½¢ on corn, 8¢ on oats, and 14½¢ to 15½¢ on rye.

Saturday's close was at almost the lowest of the week, with the trade out of a large percentage of its holdings, and a fair short interest created.

Wheat Situation Changed.

Within a few days an unexpected change has come in the world's wheat situation, making it still bullish, but less so than before. Crop reports have been raised in the United States and Canada owing to good weather for sowing, and the outlook is for enlarged yields on both sides of the international line.

There has been no material damage to spring wheat by frost or frost, and indications are that yields per acre will largely overrun early estimates. Some of the best reports in the trade have raised their estimates in the United States where we raised to 350,000,000 bu., or \$78,000,000 bu, against \$14,000,000 bu suggested by the government report this month, and \$50,000,000 bu in June, while last year we raised 250,000,000 bu.

Canada is expected to increase its yield in the three western provinces to 275,000,000 bu, and the total crop is expected to be around 800,000,000 bu. In a number of provinces of Canada are slightly better than indicated by crop reports, yet there is a wheat shortage abroad. The United States and Canada can easily spare 400,000,000 bu or more for export and have a fair surplus and can dictate prices.

Marketing Too Heavy.

Wheat is moving too fast for the demand to absorb, and with good weather in the northwest a heavy movement is expected in the market. This, combined with a continued free movement in the southwest and middle west, is creating accumulations at a rate that makes too much hedging pressure on the speculative market.

Foreigners will want a great deal of wheat, and the market is expected to expect that they will buy 200,000,000 or 400,000,000 bu of us within thirty to sixty days, so it is best to use caution and not buy futures, except on sharp declines, and be satisfied with fair profits.

Corn handlers of wheat are having a speculative market, as there is no difference between September and December and 11¢ between September and May.

Conditions in Germany are improving, and wheat and rye are being bought by that country.

Primary exports of wheat last week were the largest for the season and best at this time in more than five years. Mills are buying wheat freely and have made large sales of flour, one Minneapolis mill having sold 100,000 bbls of flour in Chicago within a few days, and prices are of 2½¢ or more.

September wheat in Chicago closed on Saturday at 23½¢ per bushel from \$1.27½ to \$1.32½, May \$1.32½, June \$1.34½. Week's prices follow:

September	December	May
Mon. 1.27½-1.32½	1.27½-1.32½	1.27½-1.32½
Tues. 1.28-1.32½	1.28-1.32½	1.28-1.32½

DA COOLIDGE SAY NOT A WORD KLAN TO DAW

They Talk an H on Farm Aid.

BY PHILIP KINSLEY

(Picture on back page)
Plymouth, Vt., Aug. 25.—[S]—President Coolidge entered the Ku Klux Klan question as a campaign issue in a discussion today. Charles G. Dawes at the home of the President's father in Plymouth.

For an hour they discussed the plan announced by the President in his speech of acceptance to a special agricultural committee report to Congress in December.

Gen. Dawes, who has spent much time and thought on the act, was consulted regarding the content of the commission. The general is expected to take action on this matter.

He and Gen. Dawes would argue about the same treatment to the agriculture in America that was applied to the work of the expert committee on reparations settlement.

BEST GOOD FROM HU MAINE

"We did not discuss the Klan issue or my speech on this subject," Dawes said in a conference.

Asked about the reaction to his speech, he said:

"There can be no reaction right which is not a fight reaction.

Gen. Dawes would not comment on the effect of the European agricultural agreement on American agriculture, although he thinks there is some direct relation between the two.

The general's views on agriculture, and any idea that he summoned "Gen. Dawes from any sort, or that he was in with the general's Klan in Maine, was displayed publicly.

GET OUT OF THE OLD P

Gen. Dawes got out his famous pipe and smoked on a while the President made his speech. Dawes will follow him next Friday. He fired off his head in approval of the former vote.

Dawes has worked over studying on problems presented agricultural situation, and means and claims advanced and La Follette for the former vote.

He has consulted with his son, McFarlin, and with other men as former members, who, it is said, will be the President to serve on the commission.

Gen. Dawes has studied the various bills introduced in and out of Congress conclusions which will be the Republican attitude.

GET VIEWS OF THE V

An illuminating incident attitude of mind at this campaign occurred at Belmont on the way to Plymouth. A bad cold to meet him in Belmont to speak to them.

"How did you like Belmont?" he asked.

"It was all right," he said.

"What did you like about Belmont?" he asked.

Gen. Dawes intends to visit the various states political leaders to speak to them. He will take those on each of the three to come to him.

If he goes to Belmont, and talked what he thought, he will tell the whole uncertain language.

POLE FOR THE M

The Dawes party last evening visited Belmont railroad point to the station. It was more than ever the more popular "Notch" was a name for the place.

Brooksby camped him and took him directly to his father's house.

After a brief chat to the candidates came pictures taken. They then had a meal and moved back to their car and home to the village of Belmont.

Gen. Dawes is in the process of talking to the President's campaign. He left Plymouth for Hartford and Albany to Chicago Tuesday.
